UNIVERSITY OF

Campus Security, as University officials on private property, has:

- the authority to address orders of protection in conjunction with local law enforcement
- the right to confiscate stolen property, illegal weapons, and controlled substances
- the authorization to operate emergency notification systems, if needed
- to facilitate first responder calls and investigations
- the authority to request photo identification, question and deny access to unauthorized person/son campus property.

University Security personnel are not public safety officers and do not have the authority to make arrests or to enforce governmental laws, rules, or regulations. Neither the University nor Campus Security has agreements with law enforcement agencies, such as written memoranda of understanding (MOU) for the investigation of alleged criminal offenses. However, the University and/or Campus Security may and frequently do opt to engage in such cooperation or may be compelled to do so by law.

The local police and state authorities work closely with the campus security staff when incidents arise that require joint investigative efforts, resources, crime related reports and exchange of information as deemed necessary.

The University community is strongly encouraged to report in an accurate and timely fashion, any incidents of crime to Campus Security and the local police.

CLERY ACT

The Clery Act requires higher education institutions to provide information about crime on and around their campuses, issue timely warnings of crimes that represent a threat to their communities and to make institutional campus security policies available to the public. Data must be collected, reported in an annual security report, and

Campus Security,

AT-RISK STUDENTS AND RECOGNIZING INDIVIDUALS IN DISTRESS

At-risk students may be students who are experiencing academic or personal struggles, thereby subjecting them to higher risk of dropping out. In some cases

- Continuing danger to the campus community
- Possible risk of compromising law enforcement efforts

Once an emergency warrants an alert, the authorized official, will, without delay, and taking into account the safety of the campus community, determine the content of the broadcast and initiate the broadcast system, unless issuing a broadcast will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The Dean of Students and/or designees will activate the appropriate emergency broadcast system.

campus with city and state officials. The City of Bridgeport Office of Emergency Management designs and orchestrates these simulations and recruits volunteers from the campus and local community to serve as role players during the exercises. All exercises are conducted utilizing standard National Incident Management System and Incident Command System principles. In addition, comprehensive reviews are completed for each campus drill, tabletop exercise, and full-scale simulation.

Two tests of LiveSafe Emergency Broadcast System are conducted each calendar year.

PROMOTING EMERGENCY PROCEDURES

University of Bridgeport promotes its emergency procedures through training sessions, drills, and extensive collaboration with the City of Bridgeport Office of Emergency Management.

Students living on-campus receive training by participating in drills held throughout the academic year.

Building managers are selected for every building on campus and trained to follow the building and emergency action plan for their designated area. This includes promoting proper emergency procedures to faculty and staff housed in each building.

When an allegation of misconduct is brought to an appropriate administrator's attention, and a respondent is found to have violated this policy, serious sanctions may be used to deter future misconduct. This policy has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated. This policy is intended to define community expectations and to establish a mechanism for determining when those expectations have been violated.
